

# LaRouche Democrats for Congress

During the course of the year just past, it has become clear that Barack Obama is unwilling to faithfully execute his Constitutional duties as President of these United States. In fact, he is not only unwilling, he is incapable. His administration has implemented a spectacular swindle of the American people, diverting billions of dollars from the U.S. Treasury to bailout the same Wall Street banks and speculators responsible for the destruction of the U.S. economy. He intervened, using his congressional toadies like Nancy Pelosi and Barney Frank, to sabotage efforts to pass LaRouche's proposed Homeowners and Bankers Protection Act, that would have saved the homes and millions of American families, and instead rammed through a scheme that not only did nothing to halt the unprecedented rate of home foreclosures, but which actually increased it.

At this moment, Obama is still engaged in a desperate effort to impose the Nazi health care plan his City of London controllers have insisted upon. Were he to succeed, it will not only continue the swindle his administration has so effectively perpetrated, but will lead to mass murder of the elderly, the poor and the sick.

Indeed, this level of contempt for this most basic responsibility to defend the General Welfare of the American people, in itself constitutes an impeachable offense.

On a greater, global scale, however, Obama stands as the major obstacle to addressing the most crucial issue before the world today: implementing Lyndon LaRouche's plan for a Four Nation agreement among our United States and the nations of Russia, China, and India for a fixed-exchange-rate credit system to supersede any existing monetary system. Such an agreement among these four nations is the critical combination required to defeat the British Empire, and create a new global system that would emphasize every nation's allocation of credit to productive industry and infrastructure, rendering the financial speculation that has wrecked the world economy a relic of the past.

That is where our three candidates come in. Summer Justice Shields is challenging House Speaker Nancy Pelosi in California's 8th cd. In Massachusetts, Rachel Brown is seeking to unseat Barney Frank, who as Chair of the House Financial Services Committee, has spearheaded Obama's swindle.

And, finally, Kesha Rogers is seeking the Democratic nomination in Texas' 22nd cd, a district that includes the NASA Space Center.

Together, these three represent a national leadership that will take the anger of the American people that first broke out against the bailout, and then absolutely exploded in August 2009 town meetings, in opposition to Obama's Nazi healthcare bill, and which right now is expressed by absolute disgust with incumbents from both political parties, and direct it toward the urgently required measures LaRouche has outlined.

Right now, we are all hanging by a thread. As LaRouche stated earlier today, the enemy is in charge of the government. And, there can be no doubt that they will continue to try to push through the Nazi healthcare bill, using whatever extraordinary measures they deem necessary. This not only must be done, it absolutely CAN be done. But, it will NOT be done without our intervention.

**KESHA ROGERS TX-22**

"We must give our youth a mission for the future. Let's get our troops out of the war zones and put them into space. We will fund this mission by a return to a Constitutional credit system, which must be implemented if we are to address the immediate crisis as well."

**RACHEL BROWN MA-4**

"The solution to the present economic collapse can only come from an intention by the Federal government to defend national interests over those of the London-Wall St. financiers. Only with Bailout Barney Frank removed from office, will this be possible."

**SUMMER SHIELDS CA-8**

"The voters have been taken for granted by Nancy Pelosi, and she is crossing the line with a fascist "healthcare" reform bill that threatens the lives of our seniors, our poor, and our sick. It's time to put a new face on congress."

# A New, World Credit-System: THE QUESTION BEFORE US

By Lyndon H. LaRouche Jr.

January 9, 2010

*The following is an introductory excerpt from a paper that Lyndon LaRouche produced on January 9th. This paper contains the absolutely crucial solution to the present crisis, and LaRouche's outline for a new, four-powers alliance between Russia, China, India, and the United States. It can be read in its entirety on LaRouchePAC.com*

The question addressed by the following presentation, is:

What are to be recommended for consideration as perspectives for what is (a) a truly, urgently needed four-power initiative on behalf of a mission-oriented process of transformation of the world's economic systems, (b) away from the presently ruinous effects of submission to an implicitly financially imperialist, global monetarist system, a virtual "new Tower of Babel," and, (c) toward an urgently needed, fixed-exchange-rate credit system of (d) mutually beneficial, global cooperation among peoples organized as a community of respectively sovereign nation-states.

This presumes the indispensable, included, practical measure of the included, (e) immediate application of the precedent provided as the principle of the Glass-Steagall reform which was introduced to the U.S.A. under U.S. President Franklin Roosevelt.

Which also means, once more, (f) the eradication of intrinsically pro-imperialist, monetary systems, by their replacement by (g) a system of sovereign national credit-systems configured in the formation of a long-term, fixed-exchange rate array of national credit-systems.

Since most of the nominal monetary-financial assets abroad presently, are loaded with an implicitly

hyper-inflationary accumulation of increasingly worthless "paper," an immediate change from a monetary system, to a fixed-exchange-rate credit system, is the only presently available hope for avoiding the plunge of the planet as a whole into a prolonged new dark age.

What is written on the current state of the British empire, is admittedly harsh, but must be stated as a truthful representation, without fear of any actual exaggeration respecting the current policies of practice of the present British Royal House. I have been careful, not to overlook the natural, national rights of the people of the United Kingdom, with whom I, after all, share a certain ancient ancestry.

The planet considered as a whole, is now hovering at the virtual brink of a world-wide, new dark age, which, if present trends in policy are permitted to continue, will become a condition comparable to, but far worse than that which Europe experienced during what is called the Fourteenth-century "New Dark Age."

## On the Subject of the Four Great-Powers Initiative

The root of that threat has been the same British Empire which had organized every general catastrophe on this planet since the onset of that so-called "Seven Years War" of 1756-1763, a British Empire which, for example, had brought Adolf Hitler to power in Germany in 1933, but which had turned, in desperation, to the U.S.A. for help against its own former German puppet, Hitler, but only after the attacks leading to the Fall of France and the consequent threat to the British overseas empire itself. Churchill's Britain then pled for succor from the United States.

Then, once President Franklin Roosevelt had died, Britain turned around again, to relaunch what had been its long-ranging intention to bring down the United States, and to proceed toward Britain's aim of establishing a neo-Malthusian form of a single world empire, a virtual "New Tower of Babel," which is the core of that monarchy's immediate, present, wicked perspective.

The U.S.A. administration of President Barack Obama, a figure whose policies are cast in the likeness of a caricature of those of Britain's former Prime Minister Tony Blair, is serving, thus far, as the British puppet employed in the effort to bring down the U.S.A. by means of the Devil's own sort of virtual treason unloosed from within the current administration, an effort, nominally led by President Barack Obama, which, if successful, would clear the way to mopping-up Britain's other chief obstacles on this planet, such as Russia, China, and India, as if one at a time.
