

Good morning Sir

Last night a source extended dates on bike path. Epstein riding with young girl to Feb 21.

2 sightings between Feb 13-21, 2019.

One just below Royal Poinciana Bridge

Second just below Sailfish Club Palm Beach

Also apparently young girl was not tall, brunette, wearing a ponytail and looked 18 give or take a few years? Could not say for certain.

JE was wearing a baseball cap.

It seems they were walking on bike path.

In December a different source had spotted JE and what seemed a very young girl.

I told [REDACTED]. Former PB chief of police.

He explained cameras only keep video for 3 months. That first incident happened sometime in Nov. I was told January.

Nothing was done to follow up.

This is a different source and now another sighting.

Thank you

Good day
