Yes, I will start on it now. Everything looks straightforward, but I will let you know if I have any questions.

The discovery is ready to be prepped. I've saved everything here:

[\\\[REDACTED\]FIRST PRODUCITON - TO BE PRODUCED](#)

Only thing we're still waiting on is the arrest 302, which will be added to the folder entitled "Epstein Arrest" when we get it later today. Can you start prepping this afternoon, please?

Thanks,
